

CALIFORNIA'S BEST REAL ESTATE AGENCY OF 2008

PACIFIC UNION

Pacific Union has been named the "Best Real Estate Agency in California" by the 2008 CNBC American Properties Awards. We also won "best marketing materials and client services in the luxury marketplace."

Winning this award reflects clearly on our people and their ability to provide their clients higher value, even in tougher times.

As the Bay Area's premier luxury real estate firm since 1975, we're proud to show them off.

Pacific Union Real Estate in Marin recently announced the winners of the Opus and Achievement awards to 25 agents who are considered the "Best of the Best" thanks to their high level of service and production. Because it's not just the property, but the values and quality of life that make Marin one of the world's most unique and desirable places to live.

As California's best real estate firm of 2008, we pledge to work even harder and smarter in 2009—with better strategies for our clients and our community—to form a more perfect Pacific Union.
